Please see that Craig receives these pictures....

Craig these are the pictures I referenced in my voicemail I left for you tonight...

please review and give me a call when you're ready to discuss;

day and night pictures from today. Now along with the water coming in the basement, now our garage is starting to show water as you will see in the pictures. 175 - 177 + 184 - 187 and notice also at the top of the garage wall there are a few spots starting to become wet, which you can plainly see..

I know someone mentioned something about springs around our house, so I'm not sure, but instead of this improving its getting worse and I know this is a thorn in your side, but I think I've really had enough.. Almost 2 years of this and sorry you get the raw end of this, but I guess you can thank Rick and Michele for all of this!!

Thanks and call.....

You have been sent 22 pictures.
