Hi Craig

the landscaping was completed last week, hopefully you were aware of this already...

I left you a voicemail and wanted to follow up on the outcome of Clints visit and the water in the basement.

I wanted to find out where this stands now and moving forward on the water in the basement still outstanding issue.

I guess if anything needs done around the front of the house there isn't a need to have the trim touched up, but I'm not sure where things stand at this point..

Please email call me (412) xxx-xxxx or email me an update...

thank you

Dave
